THE DIFFICULTY AT THE CAPE.

The Gladstone Ministry has its hands full. The troubles in Ireland are sufficiently grave to engross its attention, and the disturbance at the Cape is especially vexatious at such a time as the present. England is now involved in one of those petty wars, from which no glory is to be gained, and of which the cost is considerable. The cause of the uprising of the Dutch Boers is to be traced through the history of the events of years.

Before 1877, the Dutch settlers of the Transvaal had an independent republican government of their own. In that year the British forcibly annexed the Transvaal to the Cape Colony. The act was an outrage, indefensible on any principle of right or justice. It was done as a war measure. The British were then about to engage in the campaign against the Zulus. The people of the Transvaal, the Boers, as they are called, had incurred the hostility of Cetewayo, the Zulu chieftain, and the British feared that in the possible event of the defeat of the Boers by Cetewayo, he would be encouraged to attack Natal. The Transvaal was therefore forcibly annexed, as a measure of political necessity. The annexation was effected by a proclamation from the British Commissioner at the Cape, and was in opposition to the wishes of the Boers. They have never since ceased to protest against it. The opportunity for which they had waited came recently in the revolt of the Basutos, and the Boers at once took up arms for the restoration of their independence.

The Basutos and the Pondos are two distinct tribes of the Kafir race of blacks. They had been friendly with the British, and aided in the suppression of the Zulus. The new British colonial administration lately issued an arbitrary edict, ordering the Basutos and Pondos to give up their arms. These two tribes refused to obey the order. To have done so would have exposed them to the depredations of other tribes of blacks, for without firearms they could make no effective resistance to oppression. The attempt to enforce the order resulted in an insurrection that the British found themselves unable to quell with the forces at their command. At this juncture, the Boers, seeing their opportunity, raised the standard of independence and took up arms against the British. The Boers have thus far been successful in their encounters with the British, and in view of the complications in Ireland, it is not unlikely that the British government will grant their independence. In their efforts for the recovery of their independence these liberty-loving Dutchmen should have the sympathy of the friends of freedom throughout the world.

## RECOMMENDATIONS CONCERNING THE STATE'S INSANE.

It appears from the report of the State Commissioners for the insane, that the number of patients now under care of Langdon & Clark of Stockton, and maintained at Nevada's expense, is 140. The number has recently been incorrectly stated as 151. The Board recommend the Legislature to make arrangements for the care of the patients at an institution within the limits of the State. This proposition has already been considerably discussed in the papers of the State, and has met with general approval. It will undoubtedly be carried into effect this winter. Trustworthy and competent men in Reno are maturing plans for private asylum buildings, and propose to apply for a contract with the State. Their project is to erect suitable buildings on the State Prison grounds here, at their own expense, and to care for the State's patients at a certain sum per head. The details of their plans are not yet completed. We favor this project for many reasons, which will be discussed more fully at an early date. In the first place, the State will be saved an expenditure of \$75,000 for costly buildings. It will be saved the cost of high-salaried officials. It will be saved the jobbery and the extravagance which usually attend the administration of public institutions. The present con-

dition of Nevada's finances do not justify any unnecessary expenditures. The money for building a State Asylum would have to be raised by an increase of taxation, or by borrowing from the State School Fund. The inevitable expenses of the State Government already call for an increase of taxation from the last year's rate of 55 cents to at least \$1.15 on the \$100. This necessary increase is about all that the people should be made to bear.

## THE LOCUST-EATING BEETLE.

We hope to soon receive a communication from Mr. Le Due, U. S. Commissioner of Agriculture, in reference to the Lubbock beetle, the voracious locust-destroying insect of Asia Minor. The importation of this beetle, and its distribution in the grasshopper-ridden sections of the west might prove of incalculable benefit. From an allusion in the columns of a late New York paper we infer that a consignment of live beetles is even now on the way to this country from the region which is happily enabled to boast of their production. Should this inference prove true, we shall do our best to secure the introduction of the valuable bug in this section.

Since the appearance of the first announcement of Lubbock's discovery, the only thing we have met with to throw any light upon the habits and propensities of the insect is the following from the N. Y. Sun of December 24:

"A bug has turned up in Asia Minor which feeds upon the eggs of the locust. Where a cluster of locust eggs is examined the destroying insect appears in the midst of them. Locusts from time immemorial have made themselves disliked in Asia, and the new bug, which is believed to deposit its eggs in the live locust's body, has general sympathy and encouragement."

Let us hope that "the new bug" may find the climate of this portion of the New World not unsuited to the gratification of its fondness for the society of locusts. There seems to be a fine field for the Lubbock beetle in the "Far West."

## EDITORIAL NOTES.

A railroad 1,000 miles in length, running into the heart of Africa, is one of the greatest enterprises of the day. The road is to start from a seaport of Senegal, on the West Coast, and to penetrate to the valley of the Niger. The country through which the preliminary surveys are making is rich, fertile, and productive; the native tribes cultivating a variety of cereals and fruits. The project is of French origin, and the road is to be built by French capital. The French Government has just made an appropriation for the final survey of the route.

The Turf, Field and Farm is authorized to say that Sweetheart will trot in the summer of 1881 against Fred Crocker on the Pacific coast, mile heats, three-in-five, for \$10,000 a side, half forfeit, not only against any three-year-old, but against any horse one year older. She will trot the race east of the Rocky Mountains early in the summer, \$1,000 will be allowed for expenses, or \$1,000 will be allowed to any horse going to the Pacific coast from the Atlantic seaboard. The proposition must be taken up on or before January 15th.

If Congress desires to help the silver market, it should provide for the resumption of the coinage of Trade Dollars for export. They would be shipped to China in large amounts, and would never come back. Since the stoppage of their coinage in April, 1880, there have been 2,149,869 Mexican Dollars shipped from San Francisco to China. Unable to obtain Trades, the Chinese shipped Mexican Dollars instead. The Chinese much prefer Trade Dollars.

The opening of the Nevada Legislature to-day is not an event to occasion any unhealthy excitement, except, perhaps, among the office seekers at the Capital. Our readers will be kept fully informed of all proceedings of importance, and issues of consequence will be freely discussed in these columns as they arise in the transaction of business.

The Record-Union of January 1 is a twenty-page paper, containing an immense amount of reading matter, mostly devoted to puffs of local business houses. This extra number has several valuable special articles, written for the occasion, and much liter-

ary matter of interest. The New Year's Record-Union is a credit to the proprietors of the paper.

The first bill passed by the incoming Legislature should be one advocating the caring for of Nevada's insane at home. If the State is too poor to build an asylum of its own, let a contract be made with some of the Nevada physicians.—Battle Mountain Messenger.

There were 37 suicides in San Francisco during the past six months, and 15 homicides. During the year there have been 25 homicides, but no executions. Human life seems not to be held dear at the Bay.

According to Consul Denny of Shanghai the skilled workman in China earns \$1.50 a week; the farm laborer gets about \$2 per month, and the Coolie is glad to work for 5 cents a day when he can secure a job.—Bulletin.

The State Line Herald has a column headed "Editorial Briefs." The first "brief" in the last number of the paper was over a third of a column long, and contained fifty-five lines.

One can enjoy the satisfaction of a complete incineration in the cremation furnace at Gotha, Germany, for the small sum of \$16. Thirty bodies have been cremated there within the past two years.

Thomas Hughes wrote a guide book to Canada, and then formed a colony in Tennessee. Some of the Canadian journals are reproaching him for this.

Judge Goodwin contradicts the statement that he is trying for the Governorship of Montana.

Gen. Miller appears to have the best chance of securing the California Senatorship.

The California Legislature convened to-day.

## A Shocking Custom in New York.

"Clara Bell," who was at the grand charity ball in New York the other night, says: "Good-night kisses were generally granted by even the most decorous of the unmarried women. At least, I suppose so, for it has grown into a proper custom, when a girl parts with her escort at her mamma's door, to submit her cheek—not her lips—for a single chaste smack."

The iron smelting furnace near Clipper Gap, Placer county, has not yet been put in blast owing to the rainy weather putting the roads in such bad condition that charcoal could not be hauled from the pits, the Grass Valley Union says.

Thomas Flynn has arrived at Carson, and will act during the session of the Legislature as the special correspondent of the San Francisco Chronicle.

Humboldt county rejoices in an empty jail.

Planning the Knights' Excursion. Concerning the coming Knights excursion, a Carson Knight proposes that a train leave Carson and Virginia on regular express time, and that a halt be made at Reno for the night. The Reno Knights will, he says, receive the excursionists, and tender them an entertainment, not to last later than ten o'clock. This gives all an opportunity for a night's rest at Reno, and they can start at 7 o'clock next morning on the Central Pacific, and cross the mountains by daylight. What do the committee think of it.

NEVADA'S INSANE PATIENTS.

Biennial Report of the State Commissioners—Satisfactory Treatment at Stockton—The Legislature Recommended to Provide for Keeping the Insane in this State—Cost of Maintenance, etc.

To the Honorable, the Legislature of the State of Nevada.

In compliance with the requirements of law, the Commissioners for the care of the Indigent Insane of the State of Nevada have the honor to submit the report of their proceedings for the years 1879 and 1880. The conditions of a contract made by our predecessors in office with Drs. Langdon and Clark, of Stockton, Cal., March 3, 1877, for four years, in compliance with an Act of the Legislature approved March 2, 1877, includes the last two years, to-wit: 1879 and 1880, a copy of which contract fully appears in the Commissioners' report for 1877 and 1878. We have made frequent visits to, and inspection of, the Pacific Asylum, where our patients are treated, to-wit: By Hon. L. L. Crockett, January, 1879; by Hon. John H. Kinkead and L. L. Crockett, April, 1879; and by Hon. J. F. Hallock and L. L. Crockett, November, 1880, and have always found our contract fully complied with. Very many entertain the opinion that the contract expires at the expiration of the four years, to-wit: March 3, 1881. But it will be borne in mind that said contract stipulates that "said Drs. Langdon & Clark shall continue after the expiration of the said four years upon the same terms until the State authorities of the State of Nevada are prepared to receive them." The number of unfortunate patients at the Asylum at the commencement of the year 1879, the dates of admission, causes of insanity, from what counties committed, number and percentage discharged, number of deaths, total cost to the State, cost per diem, appropriation made and amount of deficiency, appears in the following tabular statement. In computing the per cent. discharged, it will be remembered in justice to Drs. Langdon & Clark, that there were at the commencement of 1879 some thirty-five chronic cases of long standing and several subsequent commitments of a similar nature. These last can only operate against the percentage. In conclusion, we are gratified to be able to report that the insane of our State are well provided for and maintained at Stockton; yet there are many reasons apparent to everyone why they should be provided for within our own State. And believing that it would be in conformity with the wishes of the majority of the people of this State; in keeping with the best interests of those who are so unfortunate as to be adjudged insane, as well as their friends and relatives; as a matter of justice to the tax-payers in the disbursement of large sums of money within our own State; and as a matter of economy in future to the State, we earnestly recommend that the present Legislature make some provisions for their maintenance within the boundaries of our own State.

Signed:

JOHN H. KINKEAD,  
J. F. HALLOCK,  
L. L. CROCKETT,  
Commissioners for the care of the Indigent Insane of Nevada.

Bishop Whitaker's School for Girls.

Bishop Whitaker's School for Girls will reopen next Thursday, for the second term of the fifth year. This admirable institution affords the best educational advantages to its pupils. It has a staff of experienced, carefully trained teachers, who take the utmost pains to impart thorough instruction. While there are competent teachers of music, painting and other accomplishments, the aim of the founder has been to provide, above all, for a sound English education, which in these days of smattering knowledge, is an education of the rarest kind. In addition to these advantages, the Bishop's School for Girls has a superior location, and is a pleasant home for its pupils. The rate for day scholars in the Preparatory Department remains at \$4 per month; in Higher English \$6 per month. In music the charge will be \$8 per month. For further particulars see advertisement.

New Year's Day.

A new moon showed her slender crescent on New Year's eve; a happy coincidence, as many who got their first glimpse of her over the right shoulder must have thought. The New Year came in amid a perfect calm of the elements, and the sun rose in unclouded splendor upon the first day of 1881. The day passed quietly and happily, without any disturbances on the streets. Several bands of predatory callers turned out in the afternoon, and pursued their wanderings until sunset. Still, the callers were not numerous, and not many ladies were "receiving," so that the social pilgrims were all enabled to avoid that particularly gentlemanly and mellow tone which too much wine and egg nog are apt to impart. Two of the most active and adventurous callers are said to have together made fifty-four calls.

The Masquerade Ball at Wadsworth.

An anonymous Wadsworth correspondent writes that the Masquerade ball on New Year's eve was attended by about eighty persons. The costumes were of the most motley character, the role of "African" being the favorite. "Light" and "Night" and "Death" and the "Devil" were, of course, represented. Other prominent characters were "Clown," "Zouave," "Turk," and "Pirate Brava." The unmasking took place at 12 o'clock, when a good supper was eaten at the Wadsworth hotel, and the dancers returned to the hall to trip it an hour or two longer.

Quadrille Band's Ball.

The ball given on New Year's eve by the Amateur Quadrille Band had a fair attendance, and was a social success. The hall had been tastefully decorated with flags, evergreens, etc., by Mr. Tippet and others, and the effect was pleasing and enlivening. The music was good. The ball opened at about 9:30, there was an intermission for supper, and the dancers who remained to the end got home before three o'clock.

County Commissioners.

The new Board of County Commissioners met to-day. Its members are R. H. Kinney, D. H. Lodge and Jos. Frey. The two last named succeeded T. K. Hymers and E. Olinhouse. The Board organized by the election of Jos. Frey as Chairman. The bond of S. B. Mallon, as Road Supervisor of Glendale, was approved. The Board then proceeded to pass upon bills against the county.

Grand Jury Meeting.

The Grand Jury met this morning. They have had under consideration to-day bills against Peter Dalton, charged with an attempt to kill Nathan, the blacksmith; against Oscar Tharp, charged with embezzlement of Alvaro Evans' sheep, and against Daniel McCarty, charged with grand larceny in the theft of a rifle. No report was expected from them to-day. The following are the names of the members of the Grand Jury:

George W. Sawyer. Wm. Donaldson, John Sunderland, Thos. C. Herman, J. S. Sellers, E. B. Fowle, F. C. Dickinson, Wm. H. Joy, P. N. Marker, J. P. Richardson, John Wright, B. G. Clow, A. M. Lamb, G. W. Wrinkled Faces.

It is a painful sight to see young ladies in their teens with wrinkled and prematurely old faces; nevertheless it is quite common, and to any one who observes the tendency of the times the reason is very apparent. Owing to flaming advertisements and bogus certificates, in which are used the names of eminent physicians and chemists, the unsuspecting and credulous have been induced to use some of the so-called liquid beautifiers, all of which are known to be positively injurious, and if used for any length of time will destroy the complexion, so that it will be next to impossible to restore it. Mothers should be very careful to see that their daughters do not use these preparations, but ask for and obtain Slaven's Harmless Yosemite Face Powder, the only harmless beautifier. For sale by Osburn & Shoemaker.

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving so cts., to run the risk and do nothing for it? We know from experience that Shiloh's cure will cure your cough. It never fails. This explains why more than a Million Bottles were sold last year. It relieves cough, and whooping cough, at once. Mothers do not be without it. For lame back, side, or chest, use Shiloh's Porous Plaster. Sold by Osburn & Shoemaker, drugists, Reno, Nevada. nov8-eod-d&w

REGULATOR OF PRICES.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
